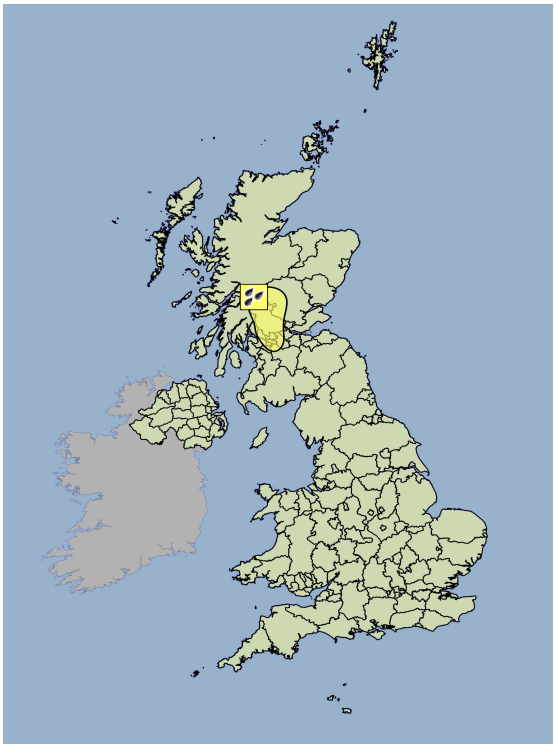
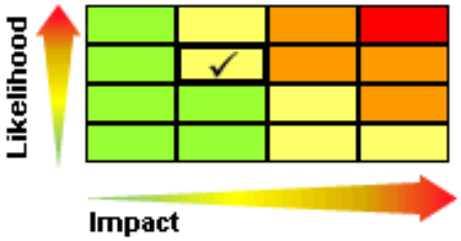
National Severe Weather Warning Service





Chief Forecasters Assessment
A warm front will introduce very mild air across Scotland on New Year's Day with persistent and occasionally heavy rain during the rest of the day and into the evening. The heaviest rain will be across western and central parts where locally more than 40 mm will bring with the risk of localised flooding, mainly across central and western Tayside.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **12:00 on Thu, 01st Jan 2015** until **23:00 on Thu, 01st Jan 2015**

Persistent and occasionally heavy rain will continue across much of Scotland through Thursday afternoon and into the evening before clearing to more showery conditions overnight. Some localised flooding from rivers and small watercourses is likely, mainly affecting low-lying agricultural land and a few roads within the warning area.

The public should be aware of the risk of localised flooding and travel disruption.
